

This playground was a combined venture with District 6420, District 5950, Bangkok, Thailand, two other Rotary Districts in Michigan and the Kids Around the World team members to build a very large playground in Lumpini Park, the largest park in Bangkok, in fact, it is now the largest playground in Thailand! In Bhichai's address at the park he said "...the most important people here today are the children." This was not just a project to donate money, District Governor Don Clayberg was there helping construct the playground equipment.
